

Mentoring Matters

Mentoring is more than just a “feel good” experience. It really makes a difference for youth, adults, families, schools, businesses -- for all of Rowan County!
Youth who are involved in a meaningful relationship with an adult mentor are:

- ✓ **33% less likely to engage in violent behavior**
- ✓ **27% less likely to begin drinking alcohol**
- ✓ **46% less likely to begin using illegal drugs**
- ✓ **52% less likely to skip school**

*"Making a Difference: An Impact Study of Big Brothers Big Sisters of America," Public/Private Ventures, 1995

Think about it. Mentoring Matters to youth, but it also matters to a community’s **Economy, Healthcare, Education, Environment** and much more. Think about it. If we can positively impact youth today, we can achieve a better and brighter tomorrow.

***Mentoring Matters to all of us ...and it feels good too!
Now stop thinking about it, and get involved today.***
